

FUND UPDATE FOR YEAR ENDED 31 MARCH 2017

This fund update was first made publicly available on 30 June 2017.

WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the Koinonia KiwiSaver Scheme Income Fund (the “Fund”) has performed and what fees were charged. The document will help you to compare the Fund with other funds. The New Zealand Anglican Church Pension Board prepared this update in accordance with the Financial Markets Conduct Act 2013.

This information is not audited and may be updated.

DESCRIPTION OF THIS FUND

The Fund invests solely in income assets (fixed interest, mortgages and cash). It is designed to have a low risk profile and to appeal to investors close to retirement (who consider they may not have enough time to ride out investment highs or lows) or are more risk averse.

Total value of the Fund	\$4,591,258
Number of investors in the Fund	379
The date the Fund started	1 April 2012

WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

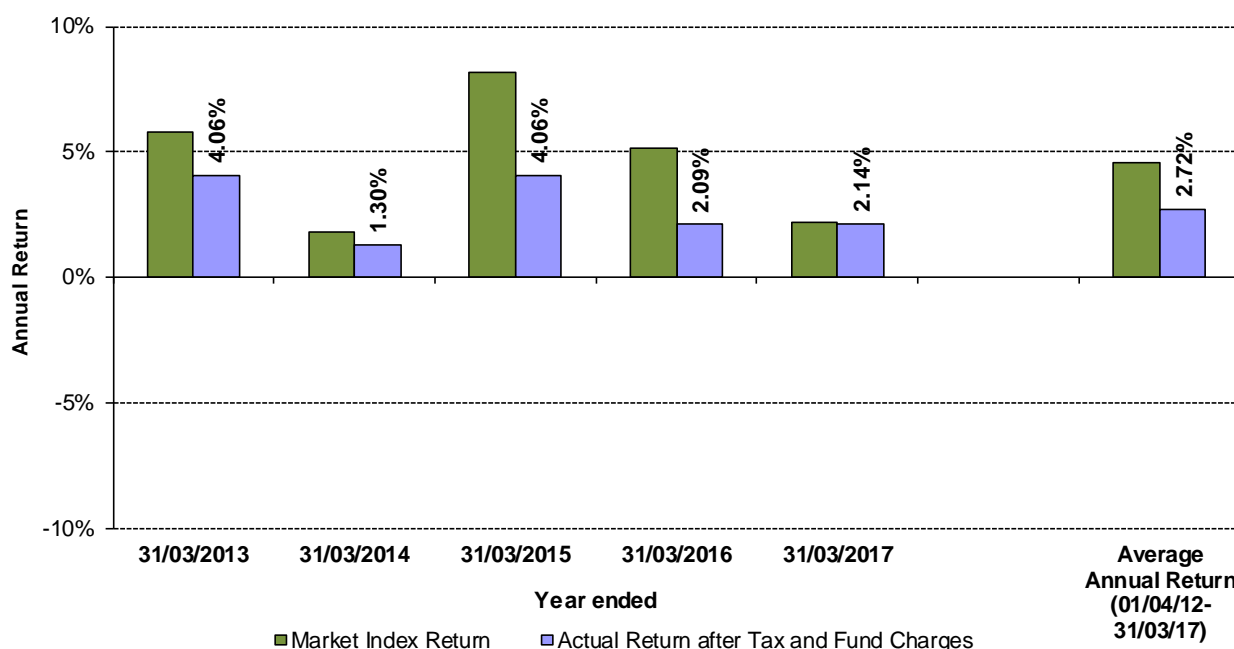

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

HOW HAS THE FUND PERFORMED?

	Average over past 5 years	Past Year
Annual return (after deductions for charges ¹ and tax)	2.72%pa	2.14%
Annual return (after deduction for charges ¹ but before tax)	3.93%pa	2.98%
Market index annual return (reflects no deduction for charges and tax)	4.59%pa	2.17%

The market index annual return is based on a composite index comprising a mix of benchmark indices. More information on the benchmark indices used for each asset class is contained in the Statement of Investment Policies and Objectives (SIPO), a copy of which is available from www.koinonia.org.nz/index.php/publications or on the offer register at www.business.govt.nz/disclose under Koinonia KiwiSaver Scheme.

Annual Return Graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2017.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

WHAT FEES ARE INVESTORS CHARGED?

Investors in the Fund are charged fund charges. In the year to 31 March 2017 these were:

	% of net asset value
Total fund charges	1.45%
Which are made up of:	
Total management and administration charges	0.00%
Including:	
Manager's basic fee	0.00%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other Charges	
Other fees and costs	1.45%

There are currently no transaction individual action fees (eg establishment, contribution, withdrawal, fund switching) or other fees charged.

From 1 April 2017 investors in the Fund are charged a fixed fee² of 1.4% p.a. of the net asset value of their monies invested in the Fund. The total annual fund charges are calculated daily as a percentage of the net asset value of the Fund.

Small differences in fees and charges can have a big impact on your investment over the long term.

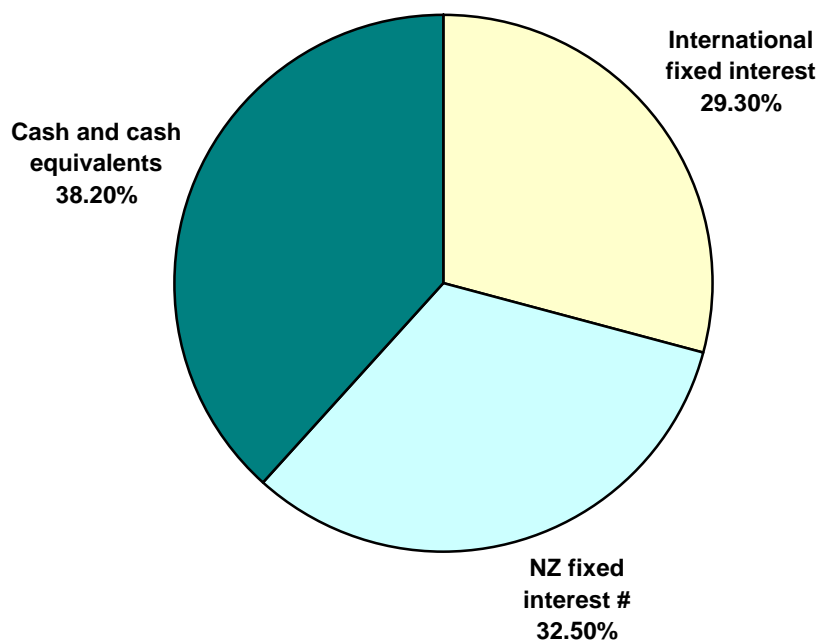

EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR

Rachel had \$10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Rachel received a return after fund charges and tax were deducted of \$214.22 (that's 2.14% of her initial \$10,000). Rachel did not pay any other charges. This gives Rachel a total return after tax of \$214.22 for the year.

WHAT DOES THE FUND INVEST IN?

Actual investment mix

This shows the types of assets that the Fund invests in.

FURTHER INFORMATION

You can also obtain this information, the PDS for the Koinonia KiwiSaver Scheme, and some additional information from the offer register at www.business.govt.nz/disclose.

NOTES

- 1 Fund charges are the recovery of our actual expenses and costs for trusteeship, administration and investment management from Fund assets. We were also recovering establishment costs over time. From 1 April 2017 the Fund charge is fixed at 1.4% of the net asset value invested in the Fund.
2. In addition to the above fixed fee the Manager is entitled under the trust deed to be reimbursed from the Koinonia KiwiSaver Scheme for other costs and expenses, such as those that are irregular or extraordinary or cannot be reasonably known or estimated.
